BEST MULTI-MEDIA PACKAGE						
Best Multi-Media Package	First Place	In Heroin's Grip	Tyson Trish, Tom Franklin, Mike Pettigano, Rebecca D. O'Brien	The Record (Bergen County)	<p>"In Heroin's Grip" is, quite simply, one of the best treatments of the heroin epidemic I've experienced to date.</p> <p>In fact, it's heartbreaking — not simply because it so compellingly chronicles the costs and consequences of the heroin epidemic, writ large in one community, but because it acknowledges the very real social and economic context in which it exists.</p> <p>The project carries so much emotional power through the videos. There is so much dignity conveyed here, so much loss. It allows each person's story to speak for itself.</p> <p>This kind of reporting doesn't just happen — it requires an enormous investment of time and planning, trust and vulnerability, but the result was more than worth it. The writing, the still photography, the videos, the editing — all outstanding.</p>	

Best Multi-Media Package	Second Place	Welcome to Herointown	Stephen Stirling,Andre Malok,Ashley Peskoe		Welcome to Herointown is a novel, data-driven treatment that communicates the size and depth of the heroin problem. By asking the audience to participate in a thought experiment — to imagine a city populated by every New Jersey resident addicted to heroin, it offers a frame, a clarity of perspective and scale. The most compelling part of this project, however, is the collection of crowd-sourced, first-person accounts. It's an illustration of the power of digital tools to collect and present a large set of diverse voices, giving users the power to explore the story in their own way.	
Best Multi-Media Package	Third Place	This map shows the racial makeup of every block in N.J.	Stephen Stirling	The Star-Ledger	This is an excellent and engaging data presentation that allows users to experience both a big-picture view and a granular one, down to precise locations. Commentary						
Weekly Newspaper/Local Website - Commentary	First Place	Adding up village's losses	Darius Amos Staff Writer	The Ridgewood News	A well-written editorial that exposes a significant problem then comes up with solid reasoning on how to address the issue of missing parking meter funds. Takes to task local government and the little oversight it provided that enabled the problem to grow unchecked. Editorials such as this highlight the importance of local journalists in making sure governments operate transparently and responsibly.	The commentary competition provided some excellent entries for consideration. It's important to realize that small community newspapers such as these are critical for residents.
